CSC 174 Spring 2024

Assignment 2

Map the given EER into the relational model. We covered three options for mapping a specialization in the class. Please use the option of "Option1: Create a table for each class (both superclass and subclass)". Please include all the relations and views (if there is any). Mapping using any other options will get a Zero. Your submission *must be typed*. You must submit a PDF file to Canvas. Files in any other format will get a Zero.
